

## **Sample Listening *Short Answer Questions***

### **Recording Transcript**

Good afternoon everybody and thank you for giving me your time today. Firstly I'd like to talk to you about a career in the fashion industry, then about the kind of people we're looking for at Pacific Clothing, and finally I'd like to tell you what we offer you if you come to work for us.

All kinds of people work in a wide range of jobs in the clothing industry, from drivers to office workers and artists. At the moment we're looking to recruit new staff from several professions. Right now we're on the lookout for scientists, particularly to work with the dyes we use to colour fabrics. And to design the patterns and choose the colours which are going to appeal to consumers, we have a strong design team. We're not looking for any new designers at present but vacancies may arise in future. However, at the moment we are looking for engineers to work in the production department. Just like any company, we too need practically-minded people to make sure that we're not spending more than we're earning, so we're currently recruiting accountants. They're not usually associated with fashion but let me tell you, they perform a vital task. But that's not to say that, if you have qualifications in another field, such as management or sales, we won't be needing someone like you in the future.
